FOR IMMEDIATE RELEASE

Highlands Oncology Expands Interpreter Team to Enhance Patient Communication

ROGERS, Arkansas– Highlands Oncology is proud to announce the addition of six newly trained interpreters to its staff, reinforcing its commitment to providing exceptional care for Spanish-speaking patients. With these newly trained team members, Highlands now employs 22 qualified interpreters, including one full-time interpreter, ensuring that language is never a barrier to quality cancer care.

To celebrate this milestone, Highlands will honor the six graduates at a special ceremony on January 15, 2026, at 6:00 PM at 3901 Parkway Circle, Springdale, AR. Members of the press are invited to attend the celebration. This event is closed to the public. This celebration highlights the organization's dedication to inclusivity and patient-centered care.

“Clear communication is essential in healthcare,” said Olekan Ajayi, Chief Operations Officer at Highlands Oncology. “By expanding our interpreter team and integrating them across all departments, we are making sure every patient fully understands their treatment options and feels comfortable throughout their care journey.”

In addition to its in-person interpreters, Highlands utilizes a virtual interpretive service, providing access to interpretation in over 300 languages. This ensures that patients of all backgrounds can confidently engage in their care decisions.
